DETAILED ACTION

Applicant's amendment dated 08/14/2007 has been received and entered. Claims 1-2, 5, 7-8, 10-16 and 18-20 are pending in the application.

Claims 1-2, 5, 7-8, 10-16 and 18-20 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

None of the prior art of record discloses or suggests alone or in combination that a thin film transistor liquid crystal display and a method of providing fast response and viewing angle of the same comprising a combination of various elements as claimed more specifically means for generating an electric field by applying a first voltage to the continuous first common electrode layer and a second voltage not equal to the first voltage applied to the discontinuous second common layer to generate the electric field between the first common electrode layer on the first substrate and both the continuous pixel electrode layer and the discontinuous second common electrode layer on the second substrate as set firth in claims 1, 13 and 19.

This application is in condition for allowance except for the following formal matters:

Drawing: The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the continuous common electrode layer, the continuous pixel electrode, the discontinuous common electrode must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

It should be noted that the drawings file 08/14/2007 are not accepted since they are not shown the *discontinuous* common electrode (emphasis added) as claimed.

Application/Control Number:

10/643,063

Art Unit: 2871

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung Nguyen whose telephone number is 571-272-2297. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Nelms can be reached on 571-272-1787. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
